Pay Check Protection Act: Its Corporate America's latest attack on working families and unions. Corporate America is trying to exterminate unions and silence working families. Their latest plan will appear on California's November ballot. This clever ballot measure was written to sound like it will control Political Contributions from "Special Interest". But the fine print proves that it was really designed to attack union membership while leaving wide-open loopholes allowing Corporation to contribute without limits. The Los Angeles County Federation of Labor will be in attendance at our April 5, 2012 membership meeting to explain this in detail.
