This is what America the Beautiful looks like. Hope in her eyes. Joy in her heart. Mothers and fathers determined to win.

The Los Angeles County Federation of Labor organized “**From the Docks to the Desert**” to bring food to the Rio Tinto Mine Workers in Boron, California.

A British-owned company wants to starve our workers into submission...locking them out of their jobs.

In London and Los Angeles...

On April 15th the Rio Tinto Corporation begins it's annual shareholders meeting in London.

We will rally and picket at the British Consulate in Los Angeles.

Friday, April 16 at 11:00 AM

British Consulate
11766 Wilshire Blvd, Los Angeles
(Free parking next door with validation at Pavillions, Enter on Stoner Ave.)

Our sisters and brothers will picket in San Francisco and Seattle.

Together we will send a message...

You can't starve out
